PROJECTS

Analysis on Apple App Data for Optimal App Development

Project • https://github.com/RaphDeAnalyst/Analysis-on-Apple-App-Data-for-Optimal-App-Development • November 2023 - November 2023

- · Conducted a thorough analysis of Application data on Apple's store, using Python for combining, organizing data and identifying patterns.
- · Employed SQL to carry out Exploratory Data Analysis (EDA), gaining a deeper understanding of user behavior and market trends.
- · Created user-friendly dashboards in Power BI, presenting trends and insights in a visually appealing way.
- · Used Power BI to provide a clear picture of the app landscape, highlighting strategic opportunities for development.

Sales Analysis on Electronic Data

Project · https://github.com/RaphDeAnalyst/Sales-Analysis · November 2023 - November 2023

- · Utilized Python for data exploration and statistical analysis, uncovering seasonal trends that informed marketing strategies and inventory management.
- · Investigated customer behavior patterns, leading to the identification of key demographics and the tailoring of targeted marketing campaigns.
- · Employed Pandas to identify products frequently purchased together, to improve cross-selling effectiveness.
- · Analyzed the performance of products across demographics, resulting in actionable insights for product development and strategic positioning.

In-depth Analysis on Higher Education Statistics Agency (HESA) Data

Project · https://github.com/RaphDeAnalyst/HESA-Data-Analysis · September 2023 - September 2023

- · Conducted an in-depth analysis of Higher Education Statistics Agency (HESA) data utilizing Power BI for comprehensive insights into higher education trends in UK.
- · Utilized Power Query for efficient data preprocessing, transforming raw data into actionable insights.
- · Investigated domicile and regional trends in higher education student admissions over five academic sessions (2017/18–2021/22), revealing an 18.7% increase in student enrollments
- · Employed Power BI to visually present findings, contributing to enhanced stakeholder understanding and decision-making
